

Strumenti per l' Espresso

Strumenti per l'Espresso

In 2006 arose "Orchestrale".
It is the result of a project thought by a group of people who wished to unite their fields of commercial espresso-coffee machine manufacture, of the restaurant industry and of furniture design.

In a particularly receptive, selective and refined market where today it is fundamental to propose beauty, quality, and innovation of technology and contents, our belief is customer satisfaction, in particular of those people who are sensitive to the value of the "made in Italy" craftsmanship, technology and design. Such satisfaction come true through our espresso coffee machines conceived according to traditional concepts and realized through modern technical concepts, innovative materials and components of the Italian excellence. Therefore our philosophy is to guarantee a wellness that springs from the efficiency, the comfortableness, the safety and from the taste and sight pleasure.

"Orchestrale" Instruments for Espresso was conceived as a poem inspired by the historical and indivisible bond between the great cultures of coffee and music in the Italian tradition and it's dedicated to the music because music is a place of connection as coffee is becoming all over the World.

"Behind the wheel I think of my next stop, the next service centre, the customary break during long trips to have a coffee, hopefully made on an Italian machine.

At last I spot a bar and with my mind still far away I open the door and find myself amid a clamour of voices that startle me back to reality.

I head for the bar where a small group of persons is quietly, almost ceremoniously, waiting in two orderly queues.

I look at the barista and all at once, as if by magic, the noisy bustle turns into an opera of orchestrated sounds, gestures, actions, rhythmic humming and whirring...

I'm rapt by this ritual performed by a man, clearly unperturbed by what's happening behind him, who manages to turn the humdrum of daily routine into a melodic work of art.

The coffee machine he uses is Italian, with a classic eye-catching design and metal parts that gleam like polished wind instruments. It's very high-tech but seems to have a soul and like an old violin its notes evoke the sounds of days gone by.

I'll never forget that sound because it made the clamour disappear forever...

*a passionate barista... the greatest conductor,
a special coffee... the best composition,
an Italian coffee machine... the finest orchestra!"*

M.B.

The Collection

This collection wants to pay homage to the music with a special dedication to the user of our machines who is seen as a great conductor of orchestra who knows how to get the best from the symphonies or rather the blends he has chosen.

Strumenti per l'Espresso

nota

professional
M A N U A L
• 1 gr. •

In the music and singing art, one of the most important qualities is the control on every note.

"Nota" embodies the essence of the skill, the study, the technique and of the Italian taste... the essence of shapes and contents with the right technique and the right control.

nota

professional
MANUAL
• 1 gr. •

It is a professional machine with thermosiphonic supply system, E61 Levetta brewing raised group, 3 Lt copper boiler, a professional sized rotary pump, a protection thermostat for heating element, water loading from tank of 2,8 Lt with capacitive level detector and from water system, separate boiler pressure and water pressure gauges, easy to adjust boiler pressure essential for different coffee types and blends.

Etnica Display

AUTOMATIC 2 gr. • 3 gr.

It is the top of the range and an evolution of Etnica.

With covered groups and with display, it represents the indivisible bond between modern and ancient, where the future is son of history and the most modern technology matches with sounds and past times.

Etnica Display **(TT)**

Etnica display is also available with the touchpad above the groups: Etnica display TT (Top Touchpad).

Etnica Display

AUTOMATIC
2 gr. • 3 gr.

It is only available automatic with normal and raised E61 groups as well (2 gr. e 3 gr.) with programmable portion control, dual gauges for boiler and pump pressure control, boiler and pipes of copper, pipes fittings of brass, frame of pure polished and satined stainless steel AISI 304 with methacrylate finishing.

The **alphanumeric display** allows to plan the following functions:

switch ON/OFF time of the coffee machine, cup warmer working temperature, warning of softener regeneration, autosteamer temperature.

Moreover it allows to display the following data: functional test / malfunctioning notice, coffees counting for single group and single metering, temperature and working boiler, boiler pressure.

Optionals: **electronic injection autosteamer** and LED lights, same colour options and customization possibilities of Etnica.

with optional
LED lights and
electronic injection autosteamer

International events and exhibitions

From 2007 Orchestrale is directly or through its Distributors involved not only on competition but also on International Events.

Strumenti per l'Espresso

Quality and design are the main reasons why our Distributors and Customers choose Orchestrale: the most important requirements we ask for to our Distributors are technical competence and after sales assistance for all the Customers.

These requirements are the real reason why Orchestrale is a chance for our Distributors to satisfy their Clients; furthermore through showroom, fairs and events our Distributors' Clients can personally see and test the quality and the reliability of our products.

Thank you for choosing Orchestrale.
